

Green Beacon Brewing Tees Up with Golf Central for a One-of-a-Kind Sports and Entertainment Precinct

Green Beacon Brewing Company and Golf Central are thrilled to announce a new partnership, launching a one-of-a-kind entertainment destination, named Landers Pocket, within the greater Brisbane Airport Precinct.

Landers Pocket will be a multi-faceted sports and entertainment precinct unlike anything seen before in Queensland and will provide a unique consumer experience for thousands of visitors each week.

Green Beacon will run the brewery and distillery, which will compliment an 800-person capacity hospitality offering operated by Golf Central. The existing state-of-the-art golf driving range will double in size and include ball tracking in every bay.

Offering a second mini golf course, padel tennis courts, multiple function and event spaces, a beer garden, and an outdoor amphitheater, this new development will offer something for everyone to enjoy.

Richard Shrosbery, General Manager of Green Beacon Brewing Company, said: "This announcement is unbelievably exciting for Green Beacon. The new brewery and hospitality venue will ensure we get our award-winning beers into the hands of more beer lovers than ever before.

"Green Beacon has been a part of the Brisbane community at Teneriffe for over a decade, and this expansion will be a huge springboard for our brand. We want to bring people together to connect, talk, laugh and have fun – and we believe this new precinct will enable that.

“This will also create dozens of job opportunities for the area. The team here are thrilled to be a part of this broader leisure precinct at Landers Pocket, right here in our home of Brisbane.”

James Cooper, Managing Director at Golf Central, said, “Golf Central has always been at the forefront of golf innovation, and Landers Pocket will deliver a re-imagined golf and entertainment experience to our local, interstate, and international golfers. There will be something for everyone and we can’t wait for this next stage of our evolution to open in early 2025. It’s certainly exciting to deliver such an important sport and recreation venue for our Olympic city.”

Established in Brisbane in 2013, the partnership agreement with Golf Central will create a brand experience that solidifies Green Beacon as one of the top craft beers in the Sunshine State and Golf Central as one of the premier golf entertainment facilities in the country
